Jotron SKIPPER is expanding:

Jotron SKIPPER is expanding its development team with more resources in its test, sensor and software sections. We think this is going to have very positive effect on the product quality and reliability. Are you interested in joining the team in Oslo, Norway?

Find out more here:

<https://www.finn.no/job/fulltime/search.html?q=jotron+skipper>

New Nippon Kaiji Kyokai (the Japan Marine Association) NK approval for SKIPPER Sea Valves:

SKIPPER can now offer new NK approval for Sea Valves. Part numbers for the new approval is:

SB-100-SB-NK 100 mm Sea Valve used for DL2 Doppler Sensor, DL21 Doppler Sensor and Echo Sounder transducers

SB-60-SA-NK 60 mm Sea Valve used for DL1 and EML224 Speed log sensors

Both sea valves need to be ordered with mounting kit:

100 mm sea valve need SB-100-SB-M-KIT

60 mm sea valve need SB-60-SA-M-KIT

Delays due to world shortage of components!

Producing electronics is a challenge at the moment, we are doing all we can to secure components for our products for the next years. Sometimes things do not arrive when promised, and this causes knock-on delays. We are informing you of delays as soon as we ourselves know. We kindly ask for your patience in these cases, Contact us if the delays cause you large problems, and we will try to find alternative solutions.

We are sorry for the inconvenience this may cause! **We encourage you to place your order as early as possible!**

We do also experience increase in freight cost and delays throughout the market!

It does not seem like this situation will resolve anytime soon!

At the moment we have 4 months delivery for the following products:

- DL850 270 kHz sensor - all versions

2 months delivery on the following products

- DL2 sensors

- DL1 sensors

SKIPPER marketing videos:

SKIPPER has now produced several videos to be used freely on stands in exhibitions etc.
