Delays due to world shortage of components!

Producing electronics is a challenge at the moment, we are doing all we can to secure components for our products for the next years. Sometimes things do not arrive when promised, and this causes knock-on delays. We are informing you of delays as soon as we ourselves know. We kindly ask for your patience in these cases, Contact us if the delays cause you large problems, and we will try to find alternative solutions.

We are sorry for the inconvenience this may cause! **We encourage you to place your order as early as possible!**

We do also experience increase in freight cost and delays throughout the market!

It does not seem like this situation will resolve anytime soon!

At the moment we have 4 months delivery for the following products:

- DL850 270 kHz sensor - all versions

2 months delivery on the following products

- DL2 sensors

- DL1 sensors

- ETN Echo sounder transducers

SKIPPER marketing videos:

SKIPPER has now produced several videos to be used freely on stands in exhibitions etc.
